*"Quality is not something you desire to achieve; it is a path one must take."*  
**45 YEARS CREATING FIBREGLASS POOLS  
 WITH A 35-YEAR STRUCTURAL GUARANTEE.**

## YOU HAVE PLENTY OF REASONS

At Freedom Pools we design and manufacture fibreglass swimming pools using the most cutting-edge, eco- friendly technology. Our swimming pools are renowned worldwide, under Australian manufacturing standards, we have won more than 100 awards.

45 years manufacturing swimming pools, more than 100,000 satisfied customers, 35-year structural guarantee, more than 30 models, 24 colours and our Marble Tech™ finishes exclusive to and patented by Freedom Pools, make us your best choice.

Why settle for less when you can have the best?

At Freedom Pools, we believe that you do not have to choose between commitment, quality and sustainability. We are proud of our Marble Tech™ technology for achieving the broadest range of finishes on the market, offering more than 24 marble effect colours. Furthermore, Freedom Pools was the first manufacturer of eco-friendly fibreglass swimming pools thanks to the development of Eco Pure™, an anti-microbial gelcoat that helps to prevent algae growth, is resistant to UV rays, chlorine and fading. Furthermore, all our pools boast Marble Tech™ technology in their finishes.

If you are looking for a swimming pool manufacturer and partner that guarantees you quality, innovation and training, we are your best choice.

Sergio Ferrández  
Manager Freedom Pools Spain

# YOU HAVE PLENTY OF REASONS

WHY CHOOSE A FREEDOM POOL

## EXCLUSIVE MARBLE TECH™ TECHNOLOGY AND FINISHES

Our **fibreglass swimming pools** are finished with patented **MarbleTech™** technology. Thanks to this innovative technology solely developed for Freedom Pools, we have achieved finishes that are UV and chlorine resistant and protect the pool from chemical agents. It combines the luxurious appearance of marble with long-lasting, high-quality resistance. Marble Tech™ finishes are available in a wide range of 24 colours.

## ECO PURE™ ANTI-MICROBIAL PROTECTION

Pools you can trust. ECO PURE™ is a revolutionary microbial inhibitor patented by Freedom Pools, which is included in the gelcoat of every swimming pool we manufacture. This system prevents algae growth and reduces 99% of bacteria\*. Clean technology, which prolongs the life of the pool by reducing the use of disinfectants.

\* In conjunction with proper water maintenance.

## WIDE VARIETY OF MODELS AND FINISHES

We offer a wide range of contemporary styles that include the latest colours, finishes and trends for family pools for cooling off, swimming... Our Freedom Pools consultants will offer guidance and advice in planning the size of your pool according to your needs, as well as in your choice of equipment, add-ons and optional enhancements, LED lighting, spas, water features...

## COMMITMENT TO THE DISTRIBUTOR

Your company will be associated with high-quality swimming pools. The Freedom Pools brand has a worldwide presence. Our quality and innovation in eco-friendly fibreglass pools and gelcoats, as well as our constant commitment to R+D+I and our wide variety of models and finishes, make Freedom Pools the best option for leading the swimming pool market. With Freedom, you are guaranteed the best quality-price ratio and excellent after-sales service.

## 35-YEAR STRUCTURAL GUARANTEE

Our top-quality fibreglass swimming pools are manufactured to the strictest Australian standards using construction methods certified by Australian regulations.

## FREEDOM POOLS TRAINING

The growth of our company is based on the continuous improvement of our technology, models and services. We are committed to our distributors and put our pool technician school at your disposal with exclusive information on training, installation and maintenance.

## 45 YEARS' EXPERIENCE

Freedom Pools is the main distributor in Europe, the Middle East and North Africa. More than 45 years' experience and numerous international prizes are our endorsement. We guarantee the best quality-price ratio since we are committed to providing the best service level and the best eco-friendly technology.

# R+D+I

RESEARCH, DESIGN AND INNOVATION

## Marble Tech™

FREEDOM POOLS has been outstanding in the fibreglass pools industry for more than 45 years due to the introduction of continuous and numerous innovations in the manufacturing process, using only the best materials.

All our fibreglass pools are finished with Marble Tech™, **a revolutionary technology PATENTED by Freedom Pools that represented an unprecedented advance in the sector.**

Marble Tech™ has the luxurious appearance of marble, is resistant to fading, giving you the peace of mind that your swimming pool will continue to look great for years to come. Naturally, the interior finish you choose for your swimming pool helps create the colour and reflective qualities of the water in your pool.

Our technology improves your installation visually and structurally, creating fully watertight and safe swimming pools.

Marble Tech™ finishes are available in a wide range of beautiful colours and effects so you can have the sparkling pool you've always wanted.

## Eco Pure™

**Who doesn't want a swimming pool or spa with safer, cleaner water, and use fewer chemicals to achieve it?**

Eco Pure™ is a revolutionary PATENTED gelcoat that helps prevent algae growth on the surface, can reduce up to 99% of common bacteria\* and is resistant to UV rays, chlorine and fading. Marble Tech™ anti-microbial gelcoat provides protection over the lifetime of your swimming pool.

Eco Pure™ is part of Freedom Pools' commitment to be an eco-friendly manufacturer. We use the latest construction methods and LSE gelcoats to ensure maximum strength and quality. Our process results in minimal waste and landfill while reducing carbon emissions and minimising other impacts on the environment.

\*In conjunction with proper water maintenance.

# EPOXY BASED VINYL ESTER Resin

We use "Vinyl Ester" resin to give your swimming pool full protection against osmosis. This product protects them even against the harshest climatological conditions.

Those who enjoy one of our pools understand their benefits very well, among which their durability and versatility, when it comes to finishes, stand out.

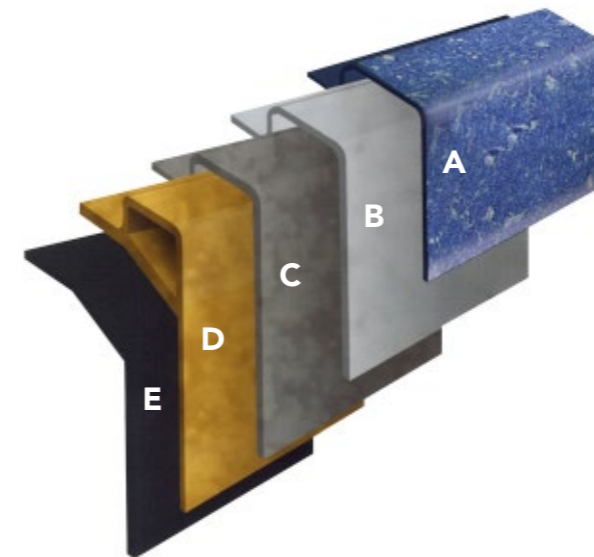

Epoxy resins are deemed high-performance since their physical-chemical properties are excellent: impervious to water, chemical protection, resistant to drastic changes in temperature and seismic movements.

The quality of raw materials is a constant in the manufacture of our swimming pools and subject to continuous review. The application of epoxy resin, as well as other materials, in the manufacture of our swimming pools ensures their durability and safety.

At Freedom Pools, we evaluate and assess our suppliers to ensure the quality of the raw materials we are going to use to build our swimming pools, thus improving our competitiveness and the guarantee of our work.

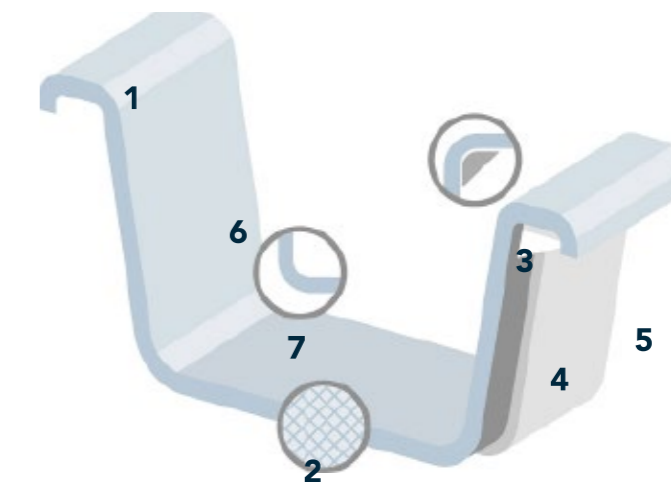

## CONSTRUCTING A SWIMMING POOL

- A. Layer of Marble Tech™ gel coat** chemical resistant and U.V. stabilised.
- B. Epoxy based vinyl ester resin** impervious to water and provides guaranteed osmosis protection.
- C. Two structural layers of fibreglass** to achieve the required thickness.
- D. Close-beam** close-beam construction provides the strongest method of constructing a swimming pool available in the industry.
- E. Layer of white resin** for maximum lamination protection. This special top coat seals the swimming pool against any exposed fibres.

## CROSS SECTION OF STRUCTURE. POOL CONSTRUCTION

1. Outer edge beam.
2. Non slip surfaces.
3. Angle brace.
4. Fibreglass wall stiffeners.
5. Gel coat to outer structure.
6. One-piece construction.
7. Rounded angles for easy cleaning.

## COLOURS & FINISHES

The result of years of research, development and testing.

Marble Tech™ is a high-quality isophthalic gel coat with a similar appearance to marble and completely different to any other finish currently available.

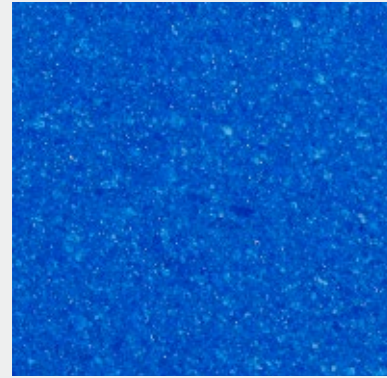

Marble Tech™ technology has meant a revolution in the fibreglass swimming pool sector. It is the most luxurious high-quality finish currently available on the market and is the result of years of research.

This technology creates a reflective pearlescent sparkle effect, resulting from less pigment and more resin. Depending on the setting in which the pool will be installed, the colour will vary, improving the colour pigment and creating an impressive and welcoming oasis in your own swimming pool.

**KIT 8 JETS**

System of air and water jets for relaxing moments. Available in all Marble Tech™ colours. Can be installed in many of our swimming pool models.

**NET & CLEAN**

This is an effective cleaning system integrated into the swimming pool shell for a pool that is always clean with minimal effort as well as reducing heating costs thanks to the homogeneous distribution of water temperature.

**BLOWER KIT**

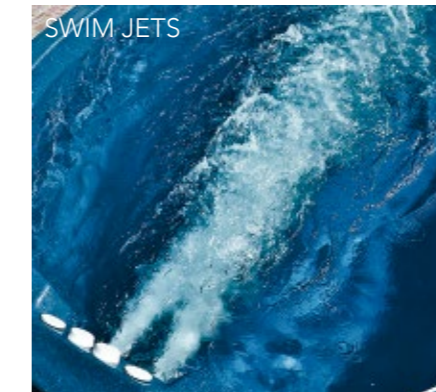

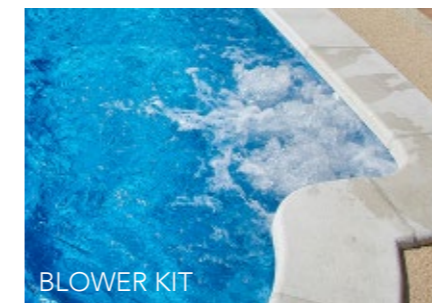

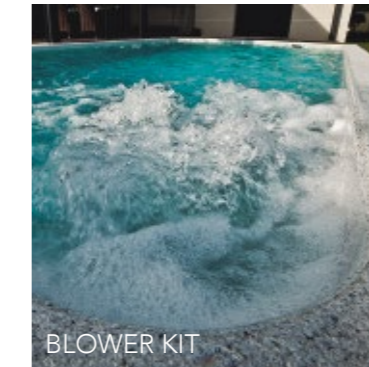

System of air jets that consists of the expulsion of air under pressure creating bubbles that massage your body. Can be installed in many of our models.

**SWIN JETS**

An added-value element to incorporate into the swimming pool for swimming and training. Comprising 2 impulsion and aspiration jets and a button with 2 air regulators. Can be adapted to any swimming pool model.

**HEATING**

Simple equipment in the shell to make the proper functioning of a heat pump to achieve the desired temperature more effective.

From basic equipment to add-ons and optional enhancements, there are many things you should consider when planning your swimming pool with Freedom Pools.

Your Freedom Pools consultant will advise you about everything you need to know about essential elements such as swimming pool pumps, filters, chlorinators, heating as well as 'nice to have' add-ons and enhancements such as water features and coloured LED lighting.

~

## EXCLUSIVE INFORMATION, TRAINING VIDEOS AND TECHNICAL ADVICE.

### DISTRIBUTOR TRAINING

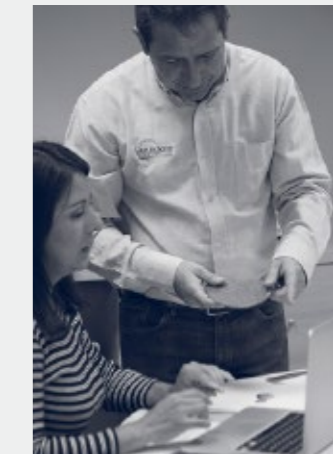

At Freedom Pools, we want all our distributors to have access to the training they need to improve processes in the sale and installation of our swimming pools, which is why we have created our own training school. A space to help professionals through video tutorials and other content to improve the work of each day.

### DISTRIBUTOR HELP

Our commitment to our distributors ensures a close and long relationship so that we both improve day by day. We make everything required to optimise their work available to our distributors: Technical sheets, manuals, advice and everything required for our swimming pools to be installed optimally, including our specialised staff accompanying each distributor at their first installation.
